Dear Ms. Bose:

RE: Docket P-15056-000

I am deeply disturbed by the plan to build a hydro-electric plant at the Ashokan Reservoir in Ulster County, NY. I moved to Ulster County in 1974 because of the surrounding beauty provided by the Catskill Mountains and Ashokan Reservoir. Part of this land is designated Protected as

"forever wild" by Article XIV of the New York State Constitution New York's Forest Preserve lands range from remote back country to DEC-operated campgrounds, and have exceptional scenic, recreational, and ecological value.

The construction process and the impact of this project on the surrounding communities will have far reaching consequences on this unique area. Please deny Premium Energy's proposal and keep this unique area "forever wild".
