	Dear M. Bose,	T/
	By now you have received 106's if not 1,000's of letters re: the hydro-ejectric	
	proposition for our fragille Catskill area. (destroying my home of many others)	*
	I will not list the concerns that have been brought to your attention. I add	
	my voice to their very researched and articulated comments.	
	,	<b>※</b>
	My plea is that as stewards of this fragile Earth and its gifts we are called to care for her and he STEWARD	
	NOT PILLAGERS.	
	horrifying matter by denying the	X
<b>3</b>	project to go foreward in any way.	
	Most sincerely.	\$ 1
